

HOW TO SUBMIT YOUR IMAGES TO BE EDITED

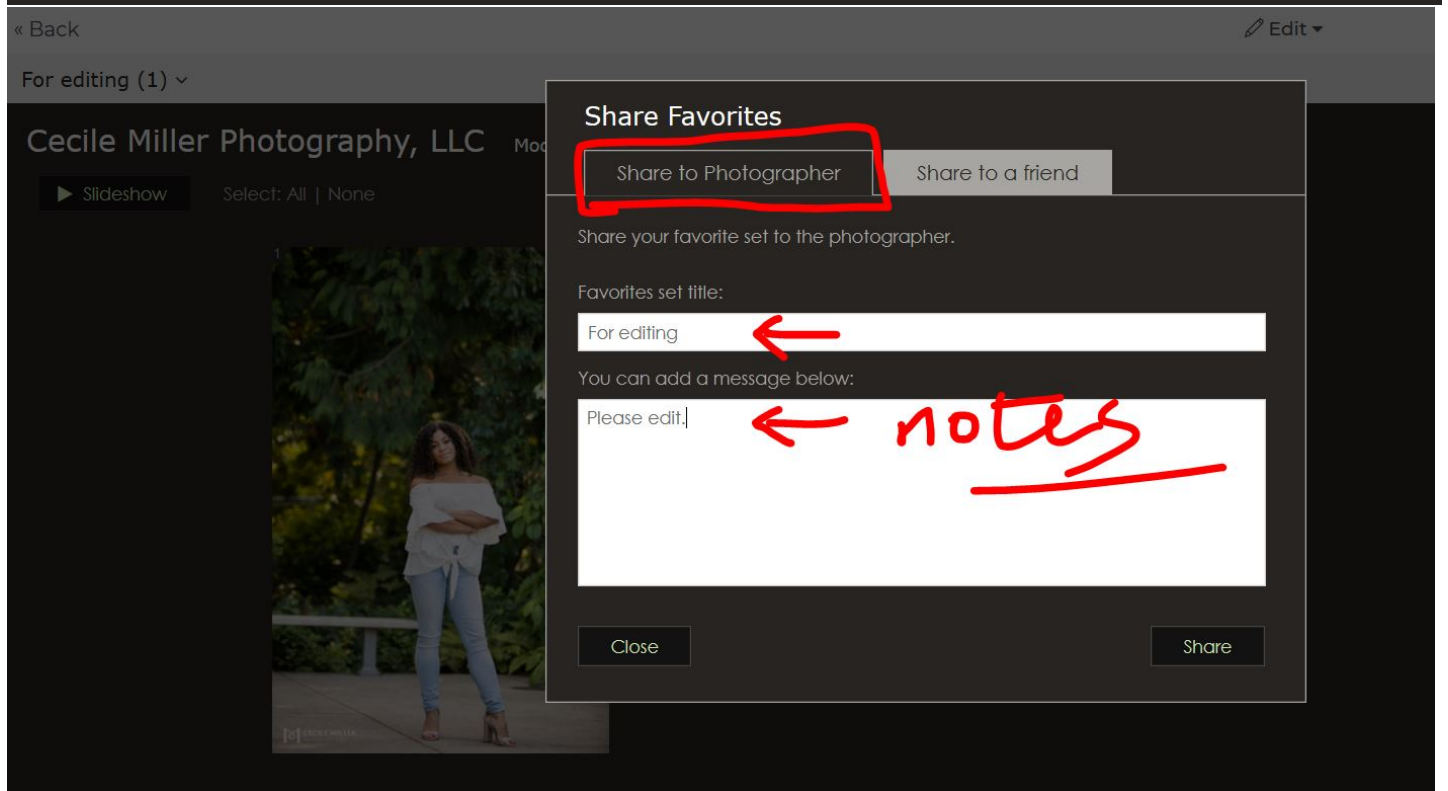

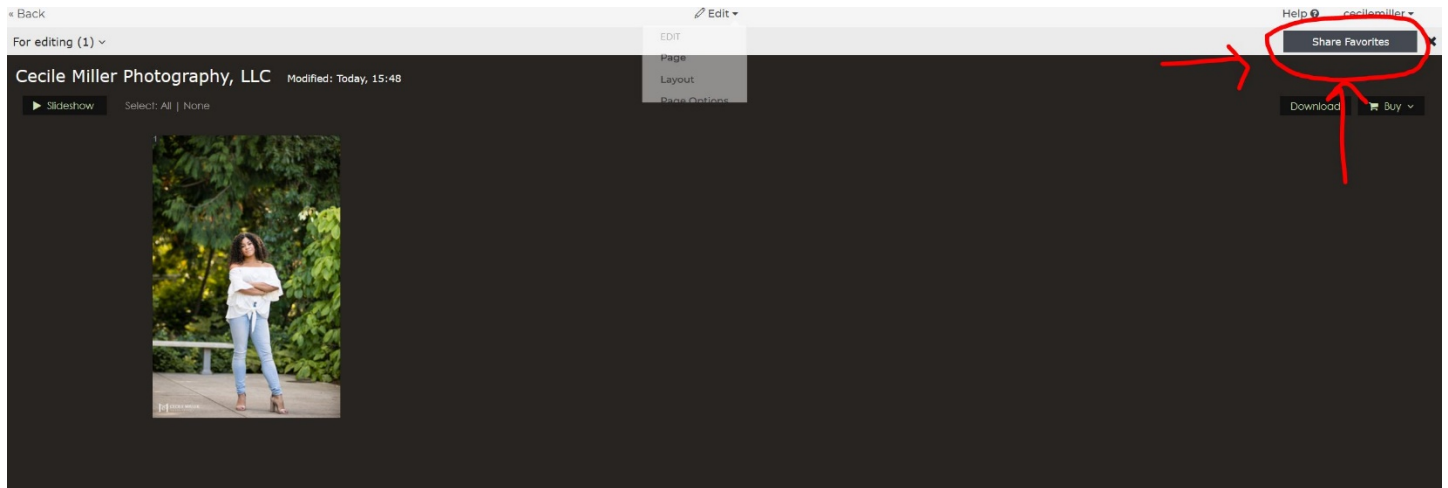

Please note it takes approximately 7-10 days to get your proofs back from editing.

Have you: Selected your images to be edited? (20 for standard sessions and 35 for full)

Have you created a “favorites” folder. (If you had a previous “favorites” folder or, one from a previous session/year, you must create a “subset” and give it a different name than before).

Once your folder of images to be edited is complete you must use the “SHARE TO PHOTORAPHER” option for your selection to proceed to the next step.

There is important information that is attached to each image for the correct images to be edited (EXIF info). If you do not use the “share” back to the photographer correctly your selection gets delayed.

If you have already had your edits completed and you just need to submit your yearbook image, please let me know which image (yes, you can use the “share” back option and create a subset folder called “yearbook image” and add any notes back to me. Schools crop specs, email or link for where to send. Please allow 2 business days (note the days I will not be able to work on these in November).

Thank you,

Cecile Miller Photography, LLC
